

**How to Reinforce Paper Back or Hard cover book with Laminating Film****Step 1**

Lay the open paperback on **KapLam Lamine film** and cut to size, leaving approximately 1" around the edges. Remove the liner paper by peeling away from the split. Lay the laminate on a flat surface, adhesive side up.

**Step 2**

Center the spine of the book on the laminate. Roll the book first to one side of the laminate and then the other. Smooth gently with a **bone folder** to eliminate air bubbles (Note: KapLam Laminating film feature delay bonding fuction, in the events that a mistake is make, remove the film slowly from the book cover and reposition it again.)

**Step 3**

Cut away the corners of the laminate at a 45° angle. Also slit the laminate at the corners of the spine at a 45° angle.

**Step 4**

Fold the overlapping laminate around the book edge and secure to inside of the covers. Trim off the remaining center tabs at the spine.
