

1.) Select a right size of Poly-cover sheet. The height of cover should be taller than the book height.

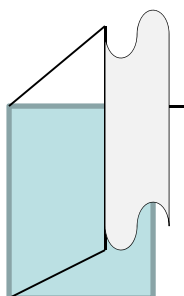

Poly-cover come in 7 pre-cut size in sheet, from 19.1cmH (7"H) to 36.8cmH (14"H). Check it out from our catalog.

2.) Mark and use a trimmer to trim to the height of the book.

3.) Remove the center score to expose the adhesive. Lay the book flat on top of Poly-cover. Spine close to the Adhesive strip and start to wrap over the book spine.

4.) Remove one side of the paper liner and cover the book carefully. Using a Squeegee and apply even, firm pressure to laminate surface to secure adhesive with a clean look. Fold the extended portion inside the book cover.

Apply the same to the back cover.

5.) Your book are now protected by Poly-cover. A non Acidic, non yellowing cover that will extend your book Circulation for many time.

Other processing tools may need:

1. Trimmer
2. Squeegee
